Tiny Tales from the Tee

Hooked at 15!

My mother and her girlfriend were learning to play golf, they realized as a twosome they would be paired with other players. Since they were just learning, they decided to grab their daughters to make a foursome.

I was 15, my first set of clubs were Lady Spalding's and not knowing the game, played the ball where it lied. 42 years later, loving the game just as much and thanking my mother for introducing me to golf. She has since gone but every day I play, I think of her.
